

CITY JOTTINGS.

THE winter of our discontent is getting badly mixed with slush and mud.

THE late deep snow in the northern and eastern portions of the Territory is causing many farmers to lose their cattle.

THE Utah Election Memorial has been received at Washington, and placed in the hands of the proper committee.

GEN. MAXWELL'S term as United States Marshal of Utah, expired on Thursday. Deputy Smith fills the position until the arrival of Mr. Nelson.

SECRETARY BLACK informs us that he isn't "that tired, fearless man," mentioned in yesterday's TRIBUNE. When he is tired, he will call for a rest.

MR. J. C. GARRINGTON, just returned from the Black Hills, will to-morrow tell the readers of THE TRIBUNE what he knows about the bill.

TWO bars of bullion from the Ontario, Park City, valued at \$1,733,84, and two from Tintic, worth \$3,111,50 were received at Wells, Fargo & Co's yesterday.

JAKE, the Chinaman, pleaded his own case in Emerson's court yesterday. It was almost as good as the Deseret alphabet, and fully as intelligible to the Judge.

MIXENS who contemplated going to the Black Hills from the paying camps of Utah and Nevada, have wisely given up the idea. They will let well enough alone.

THE boys who called at the Salt Lake House to see that \$200 worth of gold, should not grumble. Hamlin went clear to the Black Hills for it, while they only had to walk a few blocks. The lesson is—keep away from the Hills.

THROUGH a printer's error in an editorial article yesterday, we gave thirty-nine votes to Judge McKean on the final ballot and nine to Dr. Graham. Only forty votes were cast, and of those the first named received thirty-one.

ELDER B. says that when the Profit's Deseret alphabet election tickets were distributed around among the members of the two Houses of Congress, they seemed utterly surprised that such a system of voting could be practiced in this day and age.

A OGDEN county scrub, writing to Grandmother, says: "We have had much sickness, and some of our children have died of throat disease, but the ordinances of the gospel have been the means of saving many who were stricken with this dreadful disease." We would like to know of the old lady whether or not the Salt Lake City ordinance wouldn't have been just as effective—especially the one in relation to physicians and druggists.

THE Mountain Meadows press don't take kindly to the resolutions and platform adopted by the Republican Territorial Convention. First the Democrats gave the polygamous law breaking crew a slap in the face, then the Republicans followed it up on both cheeks. Verily the slaves of the Profit have a rough time of it, with no party in which to place their trust. They will have to slink back into the folds of their Endowment robes, and again swear eternal hostility to the Government.
